Robomow RM200 **£899** including vat

Specification

The RM200 is recommended for lawns of up to 250m².

Robomow[®] RM200 is an automatic lawnmower that cuts the grass all by itself. All you have to do is take it to the lawn and press the GO button.

The new, state of the art, Robomow[®] is more efficient and less expensive.

Mows more. For less.

- ◆ Compact one blade mulching system
- ◆ Remote Control for convenient transport of the mower from the garage to the lawn and between plots, as well as mowing very narrow areas manually (available as an accessory)
- ◆ User controlled theft protection including an alarm system
- ◆ Tilt Sensor - stops rotating blade immediately when Robomow is tilted
- ◆ Compact and easy to store between operations
- ◆ Technical specifications:
- ◆ Weight: 17.6kg (incl. the batteries)
- ◆ Dimensions: 64cm x 52cm x 30cm
- ◆ Colour: Green
- ◆ Mowing Height: 20-80mm, easy to set
- ◆ Two maintenance-free 12 AH sealed lead acid batteries
- ◆ Rain sensor: prevents mowing while it is raining
- ◆ Theft protection and disabling system using a personal password, supported by an alarm system
